

A graphic for a SpaceX Falcon 9 launch. On the left, a photograph shows the rocket ascending from its launch pad, with a large plume of fire and smoke at the base. The word 'WINDENBERG' is written vertically in large, blue, block letters over the image. To the right of the image, the text 'Our Next Mission' is in a large, blue, 3D-style font. Below that, the 'SPACEX' logo is in blue, followed by 'Falcon 9' in a larger, bold, blue font. Further down, launch details are listed in a smaller blue font: 'Launch Date: 24 Aug 2017 Launch Window: 11:50 a.m.', 'Launch Facility: SLC-4E Payload: FORMOSAT-5', 'Public Viewing: Hawk's Nest on Hwy 1', and 'On-Base Viewing: 35th Street and New Beach Blvd.'

**Our Next Mission**

**SPACEX Falcon 9**

Launch Date: 24 Aug 2017 Launch Window: 11:50 a.m.  
Launch Facility: SLC-4E Payload: FORMOSAT-5

Public Viewing:  
Hawk's Nest on Hwy 1  
On-Base Viewing:  
35th Street and New Beach Blvd.

## **L-2 Day Forecast – 22 August 2017:**

**T-0 Forecast:** The subtropical ridge will be the dominant feature tomorrow with the marine layer influence present over the range. Cooling overnight and sustained northwesterly flow will allow the marine layer to move in over the range and linger on the coastal areas, bringing low shallow stratus and fog through the count. By T-0, the marine layer will break out, the stratus will be clearing out and visibility restrictions lifted. Winds will be onshore through the count with T-0 winds out of the west-northwest at 10 - 15 knots. Temperatures will range from 63 - 68F and max upper-level winds will be from the southwest at 50 knots from 34,000 to 36,000 feet. The overall POV will be 0% with no constraints of concern.
